# BUILDING YOUR VISION

Your vision represents the overall feel of your wedding.

It'll be the foundation that you bounce off and the stake in the ground that you'll keep coming back to when the ship's sea gets stormy.

I like to guide my brides through a visual technique I created to help them solidify it because everything starts here. Until you know exactly what you want to re-create, you can not begin the search for your suppliers.

If you do, you may end up clashing with them as they try to understand a vision that you're not even sure of yourself. We want to really nail this part down before we move on.

Dreaming up the day is part of the fun of planning a wedding and that's why I love to start here rather than with the budget, mainly because I truly believe that on any budget, we can re-create the wedding of your dreams. I want you to think big, I want you to go back to how you felt when you first imagined your wedding and from here we'll scale up or down depending on what's most important.

I love to teach this part, it's like working with a blank canvas and anything is possible, which is why I'm now going to guide you through some of my best tools for dreaming up the day and if you sign up for our bonus masterclass then you'll really love a segment, in particular, one where I guide you through the morning of your wedding day.

An exercise that can and has brought brides to happy tears!

First, let's talk about some facts and formulas...

# MY VISION FORMULA WORKS & IT WORKS *Fast!*

---

When I first begin working with a bride, I tend to walk them through a workbook that's dedicated to their vision. Simple questions with big answers!

We start off slowly dreaming up their themes and colour schemes before moving on to the day itself.

As part of the new *Bliss Bride Experience*, I ask my brides to write down 5 emotional or experiential things they're most looking forward to on the day.

This could be:

- The excitement of the morning
- The first look
- The walk down the aisle
- The exchanging of vows
- The first dance

Whatever these may be, prioritise as many of them as possible and if ever you're feeling a little lost on this sometimes lonely path of planning a wedding, just remember and imagine these moments you're longing for. They will help you to find your way back to creativity and reasoning.

As an added extra, why not give this a go right now using the template on the next page...

# 5 MOMENTS YOU'RE MOST *Looking forward* TO...

---

When you think about your wedding day, what are the 5 most emotional or experiential things that you're looking forward to most? Make sure to prioritise these when you're planning and be sure to consciously savour them on the day.

# MY SECRET MOTTO FOR BUILDING YOUR *Vision!*

---

I truly believe that a dream wedding can be created on any budget nowadays and I want nothing more than for you to have the most perfect day for you and your partner!

Think Big. The beginning of the process is the dreaming phase, so don't worry about how something will work or how much it will cost, we'll make time for that later.

My secret motto is to always *PERSONALISE, PERSONALISE, PERSONALISE* when it comes to building your vision for the big day.

I see all too often when a couple follow the latest trend or the most popular colour scheme but we want to dig deeper so what makes sense to you as a couple?

Do you both love the Summer? Maybe bright colours are your thing.

A favourite football team that you're fiancé can't let go of? Use the team's colours in a different shade if you'd like to?

When you really make way to tell your own personal story of how you both came to be, you'll be on your way to creating memories that will last for a lifetime, not just for a moment. Your wedding day, when looked back on, should feel timeless because it really unearthed the chapter of you as a couple.

Over on the next page, I've curated a few questions that you can ask yourself if you're unsure of what type of wedding is right for you...

## 6 QUESTIONS TO ASK YOURSELF WHEN DECIDING THE *type of wedding* YOU REALLY WANT...

---

Since the vision represents the overall feel of the wedding, we need to make space to create the atmosphere you're looking to infuse into the day.

Sit down with your fiancé to really understand what it is that they want and how you can blend both decisions to suit you as a couple.

- 01 *Do we want a big, average or small wedding?*
- 02 *What do we enjoy doing as a couple?*
- 03 *How formal would we like it?*
- 04 *What are our favourite colours?*
- 05 *What season do we both love the most?*
- 06 *What is the overall vibe of the day?*

# TODAY'S TASK

---

Wooahoo! We're here!

Day 1 is all about *Building your Mood Board and Clarifying your Vision* and so that's exactly what we're going to do!

Once you've completed today's task, be sure to post your findings via a screenshot or a video screen scroll on tonight's results thread which will drop at 8 pm into the group AFTER your live recap with me at 7 pm!

Here's what I'd like you to do for Day 1:

Curate a collage of images that best represent the theme and colour scheme you want for your big day

If you already have a Pinterest board that's bursting at the seams with an array of ideas that don't necessarily match, I'd like you to create a new board and begin to move over your most heavily pinned images. You'll start to see an undercurrent of what you're feeling most swayed towards.

Sure enough, your theme and its colour scheme will begin to show itself.

It's easy to get lost in amongst a sea of beautiful images but we want to make sure that you're really narrowing down your vision so that you have more of a focus when it comes to choosing your suppliers, trust me - this will help to cut a lot of the noise out!

# TASK TOOLS

---

So, where can we find these images?

Use apps, engines and tools like Pinterest, Instagram, Google Images, Tumblr and blogs to find your dreamy inspiration.

If you're not a fan of Pinterest or you've never used it before to create your collage, there are a few other apps that you can use to build them.

Click on the logo's below to access them.

The Canva logo is written in a stylized, cursive font. The letters 'C' and 'a' are in a light blue color, while the remaining letters 'n', 'v', 'a' are in a purple color.The boefunky logo features the word 'boefunky' in a lowercase, rounded, sans-serif font. The letter 'o' is replaced by a colorful camera shutter icon with segments in red, yellow, green, and blue.

Another option, if you're feeling crafty is to create a physical mood board, go ahead and print out your favourite images and take different cuttings from magazines to help you to build up a vision for the day. Take a picture and post it on our results thread that way.

# FAQ'S

---

## HELP! I'M REALLY STRUGGLING TO LET GO AND NARROW DOWN MY THEME!

I completely understand! There's so much choice and it's all beautiful.

My advice? If you're early in your wedding planning process and you still have a way to go, you'll notice that it will naturally unfold in its own way, however, until it does, I suggest that you refrain from making any purchases until you have it all nailed down or else you could be on a one-way ticket to losing your hard-earned money!

If your wedding is fast approaching and you need to get things underway, then really sit down with your partner to focus in on this task in more detail, work through those initial first moments when the most heavily pinned images on your collage took your breath away - why did they? How does it resonate with your journey as a couple?

## MY PARTNER AND I CAN'T AGREE...

I see this every now and again. The trick here is to separately answer those 6 questions on page 6. It's a tool I encourage my brides to do whenever they feel that they're not on the same page as their partner.

Next step, compromise! *Ahhhh - welcome to marriage!*

It's true though so find and celebrate those moments where you both felt aligned with your answers but also acknowledge those that you struggled with and try to find a common ground so that you can meet in the middle.

This day is for you both to enjoy and rather than letting things divide you, find areas to unite! This can be one of them.

## I'M WORRIED THAT IF I DREAM TOO BIG, I WON'T BE ABLE TO AFFORD IT

I've seen the most beautiful weddings created on £5,000.

Nowadays, more so than in recent years, we have more and more affordable ways to recreate a wedding that looks like it's cost so much more. The key to this is to be innovative and at times to do things yourself.

Weighing up the cost of your time and money in creation against outsourcing the job is always beneficial and something that I go over in more detail with my brides when we get to that point but this is an area that I believe, with the right mindset and with a positive attitude, you'll absolutely be able to create the wedding of your dreams on whatever budget that you have.

Enjoy this dreaming phase, it's honestly the best part of planning your wedding so do not skip over it! I'm all about bringing solutions rather than problems and trust me, together, we can accomplish anything!

## WHAT'S YOUR PROCESS OF NON-NEGOTIABLES?

Great question! So glad you asked!

Another visionary tool that I teach to my couples is to niche down and choose their non-negotiables. Ideally, three, one per person and then one collectable for you as a couple.

By non-negotiables, I mean within the wedding so of course, being around your family and friends is important but I want you to dig deeper and more logistically, as this will then help you to focus the budget and will offer space in other areas to reduce and save money too.

For us, since I have a heavy background in music, entertainment was my non-negotiable. My husband, Osh, is a documentary filmmaker and so Photo/Film was important to him. Collectively, we're massive foodies and LOVE to eat so the Catering was our collective non-negotiable!

# REMEMBER TO JOIN ME *Live!*
