# YOUR DREAM WEDDING

## W E L C O M E

This is my favourite part of planning a wedding.

I like to compare this part to a business because in business there are two main roles; the visionary and the integrator.

The visionary is the person that comes up with all of the ideas and the integrator is the person who puts the wheels in motion to bring those ideas into a reality. It's not impossible to play both roles but it is difficult and so I'm here to help you with that!

In this instance, I want you to play the role of the visionary and to really get lost inside the possibilities of what could be for your big day. Ignore the budget for right now, we'll look at that part next but first, I want to work with you to really identify what your dream wedding looks like.

This first workbook is all about building your vision and I'll make sure to prompt you throughout as a way to spark new ideas and inspiration in each area.

Boil the kettle or pop the bubbly, let's get started!

# Let's Play, Plan & Pull it all Together!

The way I find this part to work best is if I prompt you with questions, ideas or moments and then you can write down anything that lights you up.

Don't panic too much about solidifying anything until it comes to the crunch time of purchasing items, sending stationery to print or making any particular decor. We'll always touch base before anything is locked in place and ready for production.

For now, sit down with your fiancé and just play around with ideas, make suggestions, brainstorm and get lost in the magic. This is truly the most amazing part of planning your wedding. Feel free to begin '*The Dream Exercise*' in the video workshop too where I get to co-host with my best friend and real-life bridesmaid, Alisha Smith. Make use of the templates in the dedicated workbook, which you'll have received in your welcome gift box.

Once you've completed this booklet and the video portal series for this segment, schedule your first 1:1 Zoom planning session via the 'Call' button in your Vision area in your *Bliss Bride Experience* portal.

Your first call will be all about building a solid vision for your big day and in it, we'll run through this booklet. It'll be a chance for me to learn more about what you REALLY want, rather than what you can afford. There's always a way to adapt and get creative with any budget. It also gives me and my team a marker for where to set our bar when searching for your suppliers and for adding in those extra little details that will truly personalise your big day.

You may already have a pretty solid idea of what you want, which is great! I'd still like you to spend some time here and to really stretch your imagination so that we can find areas that you might be playing a little too safe in.

Enjoy! xoxo
