# YOUR BUDGET

## W E L C O M E

Now that we have a rough idea of how you're imagining your big day, let's take the initiative and the foresight to really get a hold of your finances as we begin to move forward and start to plan your wedding day.

We're going to get in-depth and detailed but I want you to know that everything we discuss is completely confidential. There's no judgement here and no idea too big or too small. We can and will create your dream wedding on the budget that you can realistically save between now and your wedding.

It's time to get laser-focused on your finances, to set yourself a clear budget and to put a plan in place to avoid missing any important payment deadlines!

*Nikki xoxo*

# The Budget Savvy Boss Babe!

You may have heard me talk about my '*Budget Savvy Boss Babe Blueprint*' during live chats and trainings?

I actually **love** it - it's helped so many of my brides to get super detailed with their budgeting. It's saved them a LOT of money, which is definitely half of its purpose, the other half being to avoid a monumental debt by the end of this.

So, you'll see the example below in your softcover workbook that runs alongside the video workshop and this is based on the average wedding spend in the UK in 2019\*, do not panic though, it'll work for any amount.

\*Evening Standard

Take some time to note down your realistic savings plan before we come back to a fresh template of the blueprint so that you can fill it in to suit your budget.

# The Savings Plan!

Months to go until the wedding!

Weeks to go until the wedding!

Do you have any savings already that are dedicated to your wedding day?

Are you receiving any help or gifted funds from family and/or friends?

Yes

No

Possibly

If YES and it's a set amount that you know about, state it below...

If YES and it's a set item or area of the wedding, state it below...

What can you realistically **save between yourselves each month** between now and **one month before** the wedding?

Most final balances are due one month before your date and so I like to keep that as a deadline with any extra time for savings being a bonus.

savings per month

With that figure in mind, what are your **estimated overall savings** between now and the wedding?

estimated  
overall savings

Now's the time to finalise your budget, so pairing together your **estimated overall savings** along with any **gifted funds**, what is your wedding budget?

the official budget

It's time to fill in your *Budget Savvy Boss Babe Blueprint* to suit your own budget!

We call this  
**The Safety Net Stash!**  
This is set aside for any  
unforeseen outgoings  
or hidden costs!

This is a rough idea  
of what budget you  
can allocate for your  
venue & catering.

**Then half the  
remaining amount.**

Remaining amount for  
all other core vendors.

One of the most important things to remember here is that allocating a budget is completely individual and relative to you as a couple. I've seen many couples accomplish a beautiful wedding on budget of £5-10K.

So, what was the outcome of your realistic savings plan?  
We're going to keep coming back to this part as a point of reference to stay on track and in line with your specific budget.

Let's plan the BEST wedding EVER!!!
